

Epic's got a new website!

On May 12th, after almost six months of content generation, design and development, Epic launched its new website. We might be biased, but we honestly believe it's the best in the business. So what can you find on our new site?

Below we describe the information and free thinking available to view and download:

- We have over **50 case studies** of projects we've delivered for clients, including details of award winning solutions, arranged by subject and sector - we guarantee you'll find something of interest.
- Under **Services**, we provide an overview of the full range of design, development and support services available to our clients, including website design and Web 2.0 developments.
- Our Thought Leadership programme is captured in over 40 free, downloadable White Papers and Insights on everything 'e', available from the **Thinking** section.
- In our **News** section you can view our latest monthly newsletter, together with recent press releases relating to projects, awards, industry news and events at Epic that ensure our thinking is fresh and up to date.

If you're looking for advice, have any questions or queries about our services, or would like to talk to someone about a potential piece of work, please call us free on 0800 012 6016 and we'll be happy to talk things through.

We hope you like our new website as much as we do and we'd really value your feedback. Please go to www.epic.co.uk – a feedback form is available from the homepage.
